

# Reduce Risk of ADA & OCR-related Violations

## Simple & Continuous Accessibility Compliance

CivicPlus has partnered with AudioEye to provide a single-source, end-to-end solution for monitoring and maintaining compliance with ADA-related digital accessibility requirements. CivicPlus delivers clients beautifully designed, highly functional and accessible websites. However, like the Internet itself, websites are dynamic. **Every edit, change, or extension impacts accessibility.**

**Addressing the current climate of legal action and OCR complaints, CivicPlus is offering solutions for sustainable compliance and risk mitigation at rates exclusive to clients of CivicPlus.**

Together, CivicPlus + AudioEye reduce the risk of ADA and/or OCR-related violations and ensure ongoing compliance with federally and locally mandated laws, regulations and standards.

### Advanced Automated Testing & Remediation Suite

Scanning and diagnosis automatically detects Section 508 Refresh and WCAG 2.0 Success Criteria violations and remediates common errors.

### Identify, Track & Prioritize Issues of Conformance

Maintains full regulatory audit, conducts automated tests, and tracks the status of standards that require manual testing. Automatic and necessary manual remediation are applied with no impact to existing site infrastructure.

### Compliance Monitoring

Every time content is added – pictures, copy, events, calendars, PDFs, etc. – accessibility is impacted. CivicPlus + Ally ensures the site remains in compliance without impeding your ability to continually update content.

### Support, Training & Accessibility Consulting

Provides subject matter expertise for ongoing compliance and development of accessible materials across digital channels (PDFs, Video, Charts, etc.).

### Help Desk

Provides visitors a direct connection to AudioEye should they encounter issues of accessibility.

### Ally Toolbar

Addresses a range of disabilities, and allows all users to customize and enhance their experience for better consumption of digital content.

### Certification

The AudioEye Accessibility Certification promotes your commitment to accessibility and inclusion.
