## simpleview DAM

CMS INTEGRATION

Simpleview CMS users with Digital Assest Management (DAM) accounts have the ability to import their assets directly into the CMS, vastly expanding upon the amount of content in your library.

1 Upload & host all assets into your DAM (photos, videos, audio, documents, logos)

2 From the upload form in your CMS, click on the "DAM" button

3 Browse and filter all files within your Digital Asset Management library.

4 Import assets directly into your CMS to use on your website.
